Let's stick with diane's edits.

I am clearly not adept at using our phone system. Sorry about the hang up Phillippa.

On the edit from Michael – I'm not sure if we wanted to add that detail since we maintain fairly simple language in the Fact Sheet and the Ad.

The fact sheet states:

The cleanup plan includes consolidating and capping material containing PCBs and other contaminants, and installing a groundwater monitoring network. Areas of the former landfill would be available for future reuse and redevelopment.

Phillippa – did you want to add more detail for the PR or have the language consistent with the fact sheet, ad and email?

-Diane
